## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of Group IV in the reply filed on 7/26/07 is acknowledged.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Gadini, WO 01/30229.

THE Gadini reference discloses the claimed system, comprising an electrochemical device, such as electrodeionization, a positively charged flow regulator, including a valve or pressure switch which is believed to be a plate having a flow orifice, which would discharge at predetermined times a volumes to a household appliance (see pages 20-26, line 25). The pressure of the reservoir would have the claimed pressure.

Therefore, the claims are rejected.
